Screen Printed Mirrors

With the high technology , the characteristic specification of furniture sector has changed. Depending on this changing , we also had some search studies about Screen Printing On Mirror . And now , we are proud of serve our customers , with our screen printed mirrors.

Especially this kind of mirrors can be use for dinning rooms , bed rooms and teenager group rooms .We print them with high technological silk screen printing machines with different patterns and colors.

It is possible to wipe the mirror with a piece of soaked cloth and detergent , it doesn't deteriorate color print on the mirror. And this is proved with tests.

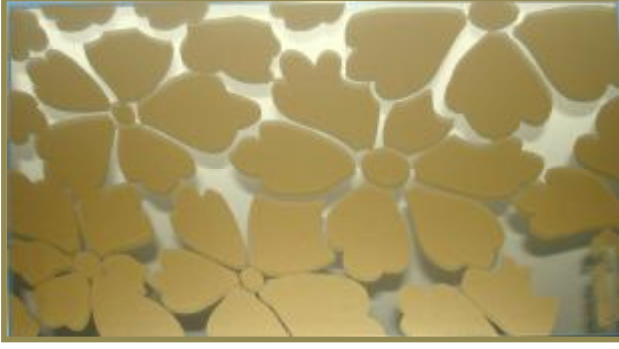

There are lots of color alternatives. It is possible to print the pattern with Ral or Pantone 's standart colors.

To bevel or edge these color screen printed mirrors can be possible.

Incase you may need more information or sample of these products please don't hesitate to contact with us.
